

We're going on a lion hunt.

Put both hands up with fingers like claws.

We're going to catch a big one.

Open arms very wide apart.

We're not scared.

Put both hands on hips.

Been there before.

One hand on one hip and wag forefinger of opposite hand.

Oh no...

Hold up both hands in front of mouth.

Can't go *over* it.

Move both hands in an arch – as if going over.

Can't go *under* it.

Move both hands in an inverted arch – as if going under.

Can't go *around* it.

Move both hands in opposite directions – as if to hug.

Have to go *through* it.

Put both hands together and move them forwards.
