LO: To reflect on a story I have heard and offer my opinion.

Write a summary of your thoughts.

I thought the story was incredible because they all had super powers. My favourite brother was the seven because if I had his powers I could create a tsunami. I didn't like it when the spiteful emperor tried to kill them all because I felt sorry for them. My favourite part was when the seventh brother made a tsunami and swept all the bad guys away because I felt so happy that moment that I had to listen in amazement. I think my dad would like this story because he is really into fighting.
