

Science Task - Living Things

This week, we're going to continue looking at classification.
Try this online game:

<http://sciencenetlinks.com/interactives/class.html>

When you go outside, keep your eyes peeled for living things, and ask yourself some of the questions from the quiz. If you play it more than once, some of the questions might be different.

Does it have a backbone?

Does it lay eggs?

Is it a mammal?

What does it eat?
