

Fact or Belief?!

Fact: This is something that has been proven to be true - there is evidence to support it.

e.g. Our school is in Kew Riverside, South West London.

Belief: This is something that people believe - it is their opinion that it is true, and there may even be some evidence to support it...though some people might think it is not true.

e.g. Our school is the best school in Castleford, West Yorkshire.

Decide whether these statements are fact or belief and explain why you think that-

Aliens really do exist.

Over time, a few people have claimed that they have seen the Loch Ness Monster.

There is one God.

Some illnesses are caused by germs.

There is no God/Gods.

Good things happen to people who do good things.

A lot of people believe in God.

The Bible tells us stories about Jesus Christ.

After death, we are reincarnated depending on how good we have been in our lives (If we're nice to people, we'll come back again as something even better!)

The earth is a spherical shape (a sphere.)

Roman emperors used to wear the colour purple.

Some people have reported seeing a bright white light when they have near-death experiences.

When we die, we go to the Happy Hunting Ground - a field in the sky.

People should eat at least five fruits or vegetables per day to stay healthy.

Scientists have proven that the Earth was created with a 'big bang' millions of years ago.

Some people can speak to ghosts and spirits.
